CONTRACTING INSTRUCTION (CI): 03-07

MEMORANDUM FOR CI DISTRIBUTION

SUBJECT: Changes to the North American Industrial Classification System (NAICS)

This CI replaces CI 00-13A in its entirety. NAICS 2002 is effective October 1, 2002 for SBA's Table of Small Business Size Standards. This table includes the Office of Management and Budget's (OMB) January 1, 2002, modifications to the North American Industry Classification System (NAICS). Together, NAICS and OMB's 2002 modifications are referred to as "NAICS 2002". The size standards in this table apply to all SBA programs and to all other Federal Government programs and actions where eligibility as a small business is a factor or a consideration.

Sixteen of the twenty sectors were modified; a significant number of the modifications were made in the areas of Construction and Wholesale Trade. Other areas in which revisions took place were in Retail Classifications as well as the organization of the Information Sector.

All corrected or new information are shown below in bold script as it pertains to the NAICS used by DESC:
